ABAC
AIR COMPRESSORS

OS Series

Silent air compressor range

Air. Anytime. Anywhere.

ABAC. Air. Anytime. Anywhere

We are a leading compressed air solutions company, providing the best compressors, tools and air distribution systems to fulfil even your most demanding needs.

Committed to quality, reliability and simplicity, we want to make your life easier with solutions that you can trust and rely upon every day.

From oil-injected screws to mobile piston compressors, from professional inflating guns to a full range of impact wrenches: ABAC is the perfect partner to help you achieve your goal, be it boosting your business or fulfiling a hobbyist dream.

Millions of professionals worldwide have chosen us to get the job done. Join the ABAC experience.

Easy maintenance
Oil-free and direct-driven, the OS series requires limited maintenance. Less time for servicing, more time to work.

Safety
The enclosed design of the pump protects your hands from hot and moving parts, allowing you to work without worries.

Silence and Compactness
Save space around you with a silent, compact yet powerful air compressor with an air displacement up to 230 l/min.

Plug and Play
Easily reach the on-off button directly on the pump for simple startup.

Versatility
OS series delivers up to 9 bar of pressure allowing you to use more tools, specialized tools.

Join the silent revolution

In our modern world, we are constantly surrounded by noise. In the streets, in the workshop, even in our home silence is a precious gift that we try (and often fail) to find. And despite our search for quietness, we are usually forced to live and work next to noisy machinery that make our lives harder, the air compressor being one of the main causes of a loud and uncomfortable room.
This is why ABAC has designed the new OS series: to give you the peace and comfort that you deserve in your working environment without compromising on performances. Be it for irregular use, or as the main tool of your business, ABAC OS will silently help you in all your activities and it will do it without making your life harder. With a noise level of 59 db(A), it's comparable with the loudness of a relaxed conversation between friends, to the point that you will not be able to revert back to a standard, noisy compressor.
However, silence is not the only advantage of the OS range. Under the uniquely designed enclosed pump, beats a powerful heart: the direct-driven element can reach up to 9 bar of pressure, allowing you to use specialized tools that require higher pressure than most common, compact air compressors can deliver.
The fact that the OS is oil-free and direct-driven it is just an additional benefit, as you can have all these advantages without the hassle of frequent maintenance: say good-bye to dirty hands and floors at every oil change, or having to replace the belt of you compressor every few months. The OS range will deliver clean, constant air for hundreds of hours without the need of any intervention.

The sound of silence
Enjoy working in a quiet environment thanks to the low noise level of the OS range, your silent business partner.

Many models, same excellent quality
From 0,75 to 2 HP, from 6 to 50 lt for a wide range of combinations. Many variation for a common word: excellence.

Safe and comfortable
The new compact, innovative enclosed pump provides safety without affecting usability, with a quick access to the on-off button, manometer and pressure switch.

Less space, more air
A small compressor that outweighs the competition with up to 9 bar of pressure without required additional space in your workshop.

Silent air compressors

START SILENT

SUPER SILENT

Compact and silence air compressor.

Comfort
Light-weight. Easy to carry wherever you need it

Stability
Reduced vibrations and noise thanks to rubber feet

Applications

- Inflating
- Blowing
- Spray pistoling
- Hobby painting
- Nailing and stapling

User-friendly and clear pressure gauges
